

TARGET SEPTEMBER 2026

4-Week Job Search Action Blueprint

Step-by-Step Execution Plan to Secure Your Dream Offer Letter

Goal: Land a Job Offer within 30 Days

This document outlines a structured, high-conversion roadmap designed to transform your job hunt. Follow these weekly milestones consistently to maximize interview callbacks and convert them into official offer letters.

WEEK 1

Foundation & ATS Optimization

1. Build an ATS-Compliant Resume

Use single-column layouts (tools: Reactive Resume or Canva clean formats). Ensure exact keyword matching from target Job Descriptions (JDs). Avoid tables, graphics, or complex columns.

2. Optimize LinkedIn Profile

Update headline to [Current Role / Skill] | [Key Tech Stack] | Open to Opportunities. Enable "Open to Work" (visible to recruiters only). Fill out About section using bullet points.

3. Portfolio / GitHub / Proof of Work

Clean up top 2-3 projects. Include live links, clear Readme files, and metrics (e.g., "Improved speed by 30%").

 **Pro Tip:** Run your resume through Jobscan or Resume Worded to check ATS keyword score (target 75%+ match).

WEEK 2**Targeted Outreach & Smart Applications****1. The 80/20 Target List**

Shortlist 20-25 active hiring companies in your industry rather than mass applying to hundreds on portals.

2. Direct HR & Manager Outreach

Find Tech Leads, Engineering Managers, or Talent Acquisition Specialists at target companies and send customized direct connection requests.

Sample Outreach Script:

"Hi [Name], I noticed [Company Name] is expanding its team. With hands-on experience in [Key Skill 1] & [Key Skill 2], I recently built [Brief Project Highlight]. I'd love to share my resume for open roles. Thanks!"

Pro Tip: Apply to jobs posted within the last 24–48 hours for maximum visibility.

WEEK 3**Interview Mastery & Core Preparation****1. Master Core & Technical Basics**

Review fundamental concepts, system design basics, or industry-standard tools relevant to your target role.

2. STAR Method Storytelling

Prepare responses for situational questions using **S**ituation, **T**ask, **A**ction, **R**esult. Quantify achievements (e.g., "Increased organic reach by 40%").

3. AI-Powered Preparation

Use ChatGPT/Claude to simulate interviews: *"Act as an interviewer for a [Job Title] position. Ask me 5 technical and behavioral questions one by one."*

WEEK 4**Mock Interviews, Follow-ups & Offer Closure****1. Conduct 3 Mock Interviews**

Practice with peers or mentors. Record your video/audio to refine communication tone, speed, and confidence.

2. Polite Application Follow-ups

Send short follow-up messages for applications submitted 5-7 days ago. Express continued interest and reference new achievements.

3. Salary Negotiation Readiness

Research market standards on AmbitionBox or Glassdoor so you are prepared when the HR extends the initial offer.

30-Day Progress Tracker

Done	Week	Milestone / Task	Target Date
☐	Week 1	ATS Resume & LinkedIn Headline Updated	Day 7
☐	Week 2	Target 25 Companies & Send 15 HR Messages	Day 14
☐	Week 3	Prepare top 5 STAR Stories & AI Mock Practice	Day 21
☐	Week 4	2 Mock Interviews & Complete Application Follow-ups	Day 28

 **All the best! Stay consistent and execute daily. Your September offer letter awaits!**
